

SCHOOL OF DENTISTRY UNIVERSITY OF UTAH

The University of Utah School of Dentistry is looking for wall-mounted visual artwork for our St. George Clinic, which is located in the dental hygiene building on the Utah Tech University campus. We co-run a community dental clinic between our dental students and UTU's dental hygienist students. The clinic is important to many in the area who are veterans, on Medicaid, and who are lower income and have no dental insurance. Clinic staff make a big difference for these folks every day!

There are three wall spaces on the interior clinic floor:

1. 8' from floor to the bottom of the clock. About 5' wide.
2. The space between ops: 5' from ceiling to top of hook. 4' from hook to hook.
3. The other side does not have hooks, but the same size art as #2 space is preferred.

We are looking for a talented artist in the St. George area who can lend a local presence to our clinic and put patients in a comforting, inspiring, and supportive frame of mind.

Project budget is \$3,000

Email applications by **Friday September 22nd** to Geoffrey Fattah, Associate Director of Marketing & Communication - geoff.fattah@hsc.utah.edu
